LAU YEE FREE

(Continued from Page 1)
Inaction held in the District Attorney's office.

U. S. Marshal Hendry testified as to his arrest of Yee Lau at the Wo Sing store. He stated that her living room was furnished in European style and well furnished.

Attorney Breckons also testified. Judge Davis delivered the following opinion:

It appears that the alleged father of this girl, a Chinese merchant, is a citizen of the United States, having become one by virtue of the provision of the act of Congress of the United States to provide a Government for the Territory of Hawaii, approved April 30, 1900, where in it is provided by section 4 that all persons who were citizens of the Republic of Hawaii on August 12, 1898, are hereby declared to be citizens of the United States and citizens of the Territory of Hawaii. As to the wisdom of this provision my judicial position and a desire to maintain the dignity of my office and what is clearly required of me by judicial ethics, forbids me to express an opinion on the question. Congress has passed the law. All I am called upon to do is to interpret and construe it. Any judicial officer who so far forgets himself and the duties imposed upon him by his high calling as to be constantly expressing opinions upon political questions while on the Bench, leaves himself open to the suspicion that he takes advantage of his position to keep his name before the public and to be talked about as an oracle. It seems to me that such conduct is highly improper, whether or not orientals, Japanese and Chinese, should become American citizens, is an open and debatable question that the press, Congress, politicians and voters should discuss in the appropriate forum. Public opinion as to the wisdom of passing laws to grant them the right to become citizens is divided in this Territory. There are those who wish to make Hawaii an American Territory. There are those who wish to make Hawaii an American Territory in fact as well as in name, who believe that such legislation would be unwise and destroy her chances for Statehood as well as to hamper and crowd the Americans who are now here so as to make it an undesirable place to live in. Which side of the question I shall take at the proper time and in the proper place I shall not announce from my seat as U. S. Commissioner for this Territory. A man because he exercises judicial functions is not precluded from having pronounced opinions upon social and political questions. Yet the Bench is no place for him to air his views.

I cannot but say that this particular Chinese-American citizen, under the evidence in this case, has allowed his daughter to reach the age of 18 without affording her the means to learn to read or write; the value of such a man as a citizen can be estimated and found by those interested in this great social and political problem. I am not here to try him for neglect of the high duties that citizenship imposes, but I am amazed at his utter disregard of parental duty if his story is true, as detailed by him under oath this day. It has not been established by a preponderance of evidence that this girl is now unlawfully within the limits of the United States and my plain duty is to dismiss this case and to discharge her from custody and she is free to depart from this Court as soon as I place the order for her release in the hands of the United States Marshal.

GEO. A. DAVIS,
U. S. Commissioner.

Think of the Danger

If a will is lost it often means legal complications worse than a contest. If a deed to a piece of property is mislaid and not found when wanted there must be a duplicate made and certified by the proper officials in the land offices. And it all means money lost. In either event the cost is greater by far than the rent of a box in our Safe Deposit vault several times over.

FOR FOUR DOLLARS

we guarantee you security from loss for the period of one year and you will have the use of one of the boxes in our vault that is made of steel and iron and built so strong that it will resist the attacks of burglars even when dynamite is used to effect an entrance.

FOR CORPORATIONS

we have the largest private boxes to be found in any vault in the country. These are made large so that books of record as well as silver plate in large quantities may be easily deposited in one of them. For estates managed by two persons they are most satisfactory for the reason that both officers must be present in order that the safe may be opened.

We have private rooms where papers may be examined at any time during business hours and where there is less danger of interruption than there would be in a private office.

The officers of this Company are always ready to give advice when asked upon any subject with which their experience has made them familiar. The securities offered investors are believed to be gilt edge and such as the courts approve for investment by executors and administrators.

We will be pleased to have you call and inspect the offices and the mammoth vault whether or not you intend to become a patron.

The Henry Waterhouse Trust Co., Ltd.

he doesn't oppose it. The recommendation of the Secretary of the Treasury comes as unexpected assistance to those who have been trying to get the refund bill through Congress, and there is now good reason to hope that it will become a law.

The appropriations for the Territory of Hawaii contain nothing of any great moment beyond the usual contingent expenses and a few minor appropriations which are recommended for the purpose of paying the running expenses of the various Federal institutions, such as the light house service, the quarantine station, etc., and small appropriations for improvements at the naval station and the quarantine station.

The estimated appropriation for contingent expenses, covering salaries, etc., amounts in all to \$153,000. It includes the following items:

Salary of the Governor, \$5000; Secretary, \$3000; Chief Justice at \$5000 and two associate justices at \$5000, \$15,000; Judges of the circuit courts, at \$2000 as much as may be necessary out of any monies in the Treasury not otherwise appropriated.

In connection with the salaries of Territorial officers, Governor Carter recommends an increase in the salary of the Governor from \$5000 to \$7500 a year. He also recommends that two associate justices be added to the Supreme bench at a salary of \$5000 each.

For judges of the circuit courts (except the first judicial district, at \$3000 each as much is recommended to be appropriated as may be necessary. To this is appended a note by the Governor in which he states that the \$3000 provided is sufficient for judges outside of Honolulu, as their work is light, but the first circuit work is constant, and each of these three judges should receive not less than \$4000.

The sum of \$3500 is recommended for contingent expenses to be expended by the Governor as follows: postage, stationery and incidentals, \$1000; private secretary to the Governor, \$2000; traveling expenses of the Governor while absent from the Capitol on official business, \$500.

For the improvement of Pearl Harbor but \$2000 is recommended, to be spent on the survey and project for the improvement of the Harbor.

An appropriation of \$5000 is recommended for the condemning of private fishing rights in the Territory. It is suggested that this appropriation be made under the Federal Department of Justice for carrying out the desire of Congress to condemn and ascertain the lawful value of these private rights, which have been recognized by the Supreme Court of the United States.

The Hydrographic branch of the Geological Survey in Hawaii comes in for a recommended appropriation for rapidly surveying the condition in the islands of the water above and below the surface of the ground.

By the act of June 30, 1906, the sum of \$10,000 was appropriated for the purchase of books for the courts of Hawaii. It is recommended that the unexpended balance of this appropriation be made available for the same purpose until expended.

Nine thousand two hundred dollars is recommended for the purpose of paying salaries of the United States District Court officials, as follows: Judge \$5000; clerk, \$3000; reporter, \$1200.

No extra appropriation is recommended for the maintenance of the Leprosy Hospital. It is recommended that the balance of the appropriation of \$50,000 made by the act of March 3, 1905, and reappropriated by the act of June 30, 1906, for the fiscal year 1907, be made available for 1908.

A total of \$2500 is recommended for the Honolulu Quarantine Station, \$2000 for tanks for water supply and \$500 for a water pipe to the new wharf.

The naval station comes in for only \$3100. The sum of \$1100 is recommended for grading, curbing and fencing, and \$2000 for fender timbers for Piers I and II.

The remaining item is the recommendation for an appropriation of \$25,393.69 for reimbursing the Territory for the amount expended by it in maintaining the light house service on the coasts of the Territory from the time of the organization of the Territory up to the time the light house service was taken over by the Federal Government. An act appropriating this sum was submitted at the last session of Congress.

The items mentioned do not cover all the Territory will get. Governor Carter states that they are made up from his report, but there are certain Federal officials who do not report to him, but whose estimates of the amounts required for running their departments go directly to the Secretary of the Treasury, and consequently are not included in the above. Marshal Hendry, for instance, does not report to the Governor, nor does the Collector of the port.
